WHO IS INTER ISLAND PROPANE?

A New Option for the Islands

by Donny Galt

Jimmie and I are both business owners that know how to work and live in the San Juan Islands. With the recent buyout of VanderYacht Propane by AmeriGas (DBA San Juan Propane) we both realized the importance of a new option for the residents of San Juan County. As we both came to the partnership table we realized how valuable we will be as partners. Jimmie's 30+ years in the heating and cooling business and my 30+ years in a variety of entrepreneur ventures has created, in my opinion, a perfect match for a new propane sales and HVAC business. We want to take our business knowledge, dedication, experience and accomplishments and build a new company that will keep "living in the San Juan's" sustainable by offering another choice to Islanders. We want a business that provides Legendary Customer Service at a consistent level throughout all of the islands. We want a company that supports local jobs, is environmentally

friendly and gives back to our community.

We are proud to present: Inter Island Propane and Mechanical

Islanders Bank has financed our dream and we are on our way! Bobtail delivery trucks are being shipped, our storage tank is being constructed and our office location will be where Jimmie has his Jims Heating and Refrigeration office. 815A Spring Street Unit 1. Across from Towns water tower. Our goal is to be pumping gas in October 2016! For updates on our progress or to get more info- go to our website at www.InterIslandPropane.com. When you get there.
